

MMSU's Commitment

Take an active role in protecting and promoting sustainable use of terrestrial ecosystems, responsible land use, and biodiversity conservation.

SDG 15.3.4 · Alien species impact reduction (policy)

Have a policy to reduce the impact of alien species on campus.

Evidence year: 2025 (calendar year), with continuing implementation 2024–2026

NO ENTRY YET. THE asks for a policy to reduce the impact of alien species on campus. Nothing was found in MMSU's public sources, the focal person's mailbox or the links supplied by the team. A memorandum from the Office of the President requiring native species in campus planting and the control of invasive species would answer it.
