Sustainably farmed food on campus

2 frames

15 LIFE ON LAND

THE STORY

Food grown on university land: a new research greenhouse and a farm that opens its harvest and technologies to partners.

MMSU'S COMMITMENT

Take an active role in protecting and promoting sustainable use of terrestrial ecosystems, responsible land use, and biodiversity conservation.

13 AND 20 MAY 2025 · RDE COMPLEX, MMSU

New Research Greenhouse and Staff Training Support Controlled-Environment Crop Production on Campus

1. **THE TRAINING**
   18 researchers and farm workers trained hands-on to operate and manage the new greenhouse (13 May); a follow-up on 20 May covered planting solutions for soilless and hydroponic systems.
2. **THE FACILITY**
   A Php 2.2-million greenhouse, 10 × 6 m and 6.1 m high, with combined mechanical and natural ventilation and three planting bays: soilless, hydroponic and soil-based.
3. **THE PURPOSE**
   Built under HERIP to strengthen research in controlled-environment agriculture and give students immersive learning.

Parambak ditoy MMSU 2025 Showcases Extension Technologies for Farmers

1. **THE EVENT**
   The 7th Parambak ditoy MMSU closed the 47th Foundation Anniversary, showcasing how extension and research programmes support community development and agricultural innovation.

2. **WHO TOOK PART**
   37 exhibitors, including ATI-Ilocos learning sites, Magsasaka Siyentista, Balik-Probinsya beneficiaries and LGUs, with the Provincial Government, NGOs, farmer leaders and entrepreneurs.

3. **WHAT HAPPENED**
   Participants harvested fresh vegetables at the President's Farm, 17 new Extension partners were recognised, and the Research Directorate presented off-season tomato and shallot, Bolinao chicken, indigenous vegetables and black garlic.
