

MMSU's Commitment

Take an active role in protecting and promoting sustainable use of terrestrial ecosystems, responsible land use, and biodiversity conservation.

SDG 15.3.1 · Sustainable use, conservation and restoration of land (policy)

Have a policy to ensure the conservation, restoration and sustainable use of terrestrial ecosystems associated with the university, in particular forests, mountains and drylands.

Evidence year: 2025 (calendar year), with continuing implementation 2024–2026

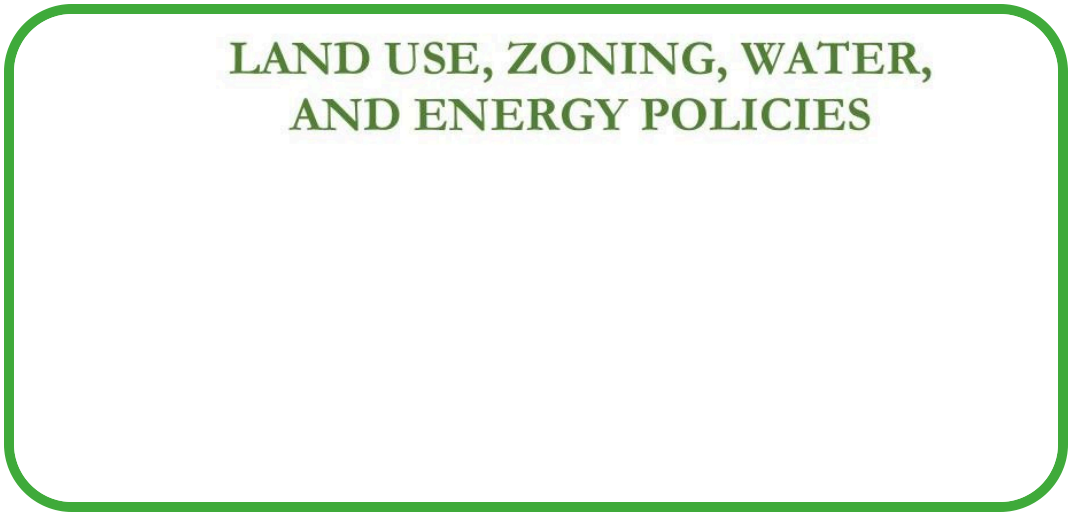

No 2025 item was found for this indicator. The material below is from before 2025 or from 2026 and, as far as the records show, is still in place.

Continuing implementation

Policies and programmes that began before 2025 and continue to be implemented, with 2024 and 2026 activities that show the programme is ongoing. THE accepts policies that are already in place.

MMSU Land Use Policy Commits the University to Conserve and Restore Its Lands

Policy · Sirmata 2040 LUDIP (2021)

LAND USE, ZONING, WATER,
AND ENERGY POLICIES

Document: MMSU Land Use, Zoning, Water and Energy Policies (Sirmata 2040 LUDIP, 2021), Land Use Policy, page 1.

MMSU's Land Use, Zoning, Water and Energy Policies, adopted as part of Sirmata 2040, the university's Land Use Development and Infrastructure Plan prepared in 2021 under Republic Act 11396, govern the conservation, restoration and sustainable use of all university lands across its campuses.

Under Policy 1.3, the allocation and use of university lands “shall aim to maintain, protect, conserve, restore, and enhance the integrity of the land itself, the environment and ecological balance in all its campuses.” Policy 7.1 requires decisions to be based on valid and reliable science, especially for any intent to alter or convert the natural state of any piece of university land, and Policy 10.2 gives fragile lands and protected areas special management “to protect, conserve, enrich, rehabilitate, and or sustain them.”

The zoning policy sets aside Protected Land as a distinct zone; under Policy 9.1, “protected landholdings of the university shall be conserved, preserved and to be excluded from any form of alteration except as may be permitted by operation of law.” The MMSU Forest Reserve is maintained as a no-build zone, and Policy 4.3 requires the university to regularly review, update and promptly communicate its land-use policies.
