5 × 2025 evidence · 4 × continuing

15 LIFE ON LAND

THE ASKS

Work directly to maintain and extend existing ecosystems and their biodiversity, of both plants and animals, especially ecosystems under threat.

MMSU'S COMMITMENT

Take an active role in protecting and promoting sustainable use of terrestrial ecosystems, responsible land use, and biodiversity conservation.

STORYLINE

Three ecosystems, one method: raise the stock locally, plant it with partners and protect what survives: forest, food plants and mangrove.

FOREST RESERVE AREAS · BARANGAYS LUBBOT AND PAYAO, CITY OF BATAC

Enriching MMSU's 1,068-Hectare Forest Reserves with Native Species

1. **THE LAND**
   MMSU manages Forest Reserve Areas in Lubbot and Payao totalling 1,068.13 hectares, where its forestry and agroforestry research is set up.
2. **OWN PLANTING STOCK**
   The university maintains and extends these ecosystems with seedlings and propagules raised in its own MMSU Central Nursery and MMSU Bamboo Nursery.
3. **2025 ENRICHMENT**
   2 Jul 2025: 230 CAFSD graduating students added 120 guijo and yakal seedlings in Payao and 130 kawayan tinik, machiku and giant bamboo propagules in Mabaleng.

INDIGENOUS FOOD PLANTS PROGRAM · RESEARCH AND EXTENSION DIRECTORATES

Conserving Ilocos Indigenous Food Plants In Situ, Ex Situ and Circa Situ

1. **THREE WAYS OF CONSERVING**
   An IFP Botanical Garden (ex situ), a himbabao (alukon) genebank at the MMSU Forest Reserve, circa situ cultivation of the wild yams kamangeg and dolian, and integration of IFPs into community foodscapes.
2. **OCTOBER 2025**
   For World Food Day, the second batch of Community Foodscapes and Seedbanks was set up with LGUs and schools at Eladio V. Barangan Memorial Elementary School, San Nicolas, joining sites in Sarrat and Batac.
3. **RECOGNITION**
   First R&D initiative adopted by the Regional Development Council of Region 1. A study by Dr. Menisa A. Antonio et al. won Best Paper at the SUC-ACAP 2025 Biennial Conference (27–29 Aug, Bohol).

Nature-based Solutions for Mangrove Ecosystems in Badoc and Currimao

1. **THE PROJECT**
   DOST-PCAARRD-funded nature-based solutions project led by Dr. Arlene L. Gonzales, implemented with DENR-PENRO Ilocos Norte, the Provincial Government and the LGUs of Badoc and Currimao.

2. **THE METHOD**
   Green engineering with locally available, ecologically friendly materials, including bamboo-engineered structures that protect young mangroves and improve their survival.

3. **2025 MILESTONES**
   An MMSU–DENR Region 1 dialogue at ILAARRDEC (DENR pledged technical support in restoration, monitoring and evaluation) and the 27–28 Oct propagation seminar-workshop for four coastal towns.

MMSU, Rotary Club and Badoc LGU Restore a Typhoon-Damaged Mangrove Stand

1. **THE PLANTING**
   MMSU, the Rotary Club of Laoag Sunshine and LGU-Badoc planted 280 mangrove propagules to restore a stand extensively damaged by past typhoons.
2. **THE GOAL**
   To ensure the continuity of ecological succession at the site.
3. **WHO LED IT**
   President Manzano with Badoc's Hon. Virgilio M. Calajate and Rotary's Atty. Zsa Zsa Raval; MMSU's Vice President for Resource Generation and directors for Extension, Curriculum Development and Innovative Learning, and Student Affairs also took part.

A New Bambusetum in Barangay Aglipay, Pinili

1. **THE TRAINING**
   In a two-day bamboo production training, the MMSU Extension Directorate and CAFSD worked with Barangay Aglipay and ILAARRDEC.
2. **THE RESULT**
   46 farmers, local leaders and community members established a new bambusetum, a collection of bamboo species, in the barangay.
3. **THE SKILLS**
   Bamboo propagation, nursery establishment and plantation management.

46	2	1

Indigenous Food Plants Propagated at the MMSU Botanical Garden Are Shared with Schools and Communities

Continuing implementation · Philippine News Agency, 6 June 2026

1 **THE REPORT**
The Philippine News Agency reported that sugod-sugod, alokon, buga and karot are being propagated at the NRCMC botanical garden.

2 **THE SHARING**
Planting materials go to schools and community stakeholders for food gardens, to boost food security and give farmers an additional income source.

3 **THE LINK**
The garden is the ex situ arm of the IFP Program, which in 2025 extended community foodscapes and seedbanks to new partner barangays.

LENS FOR 15.2.3

Continuing: the ex situ arm of the IFP Program remains active in 2026.

1 MAY 2024 – 30 APR 2026 · BADOC AND CURRIMAO

Mangrove Nature-based Solutions Project Runs from 2024 to 2026

Continuing implementation · 1 May 2024 to 30 April 2026

1 **THE PROJECT**
The DOST-PCAARRD-funded NbS project led by Dr. Arlene L. Gonzales launched on 27 Jun 2024 at the MMSU Review Center, supported by DENR-PENRO Ilocos Norte, the Provincial Government and the LGUs of Badoc and Currimao.

2 **THE PROBLEM**
Poor hydrological conditions keep young mangrove propagules from surviving.

3 **THE FIX**
Technology-assisted plantations using locally available, ecologically friendly materials, including bamboo-engineered structures. The 2025 activities are shown in the 15.2.3 and 15.2.4 frames.

SEP 2025 · 30 SEP 2026 · MMSU DINGRAS CAMPUS

Bambusetums Create Living Collections for Bamboo Conservation and Learning

Continuing implementation · September 2025 and September 2026

1 **THE LAUNCH**
During Bamboo Month, the MMSU Dingras Campus, through CAFSD, launched its bambusetum on 30 Sep 2026, the second in the university after the Main Campus.

2 **WHO TOOK PART**
Students, faculty, field workers and stakeholders planted with For. Charlie Maine Cacactin; four student and staff organisations supported the activity.

3 **THE PURPOSE**
A living collection of bamboo species and learning site for teaching, research, technology development and extension. It follows the Aglipay, Pinili bambusetum of 2025.

2nd
campus bambusetum

LENS FOR 15.2.3
Continuing: a second bambusetum (Dingras, Sep 2026) extends the 2025 Pinili collection.

Source: MMSU News, “MMSU CAFSD-Dingras launches bambusetum to advance bamboo research and education,” 2 October 2026 · MMSU News, “Sustainable livelihood: MMSU, ILAARRDEC hold bamboo training in Pinili,” 3 September 2025

VISUAL NEEDED

Add a photo of the Biodiversity Conservation Learning Center and Leisure Park (none is in the compendium).

13 JAN 2023 · BIODIVERSITY CONSERVATION LEARNING CENTER AND LEISURE PARK, MAIN CAMPUS

Biodiversity Conservation Learning Center and Leisure Park Is Enriched with 28 Native Tree Species

Continuing implementation · since 2023

1 **THE PLANTING**

120 more seedlings of 28 native tree species and two bamboo species were planted, led by then President Shirley C. Agrupis with administrators, faculty, staff and students.

2 **HOW IT IS USED**

A field laboratory for classes, identified for development into a health and wellness tourism hub endorsed by the provincial government.

3 **THE TRADITION**

Continues planting begun in 2017 with the Green Wall project on the Batac campus, extending to Nagbacsan, Currimao, Dingras and Laoag, in support of the provincial Green Wall of Ilocos Norte and DENR's National Greening Program.

RECOMMENDED ANSWER ON THE THE FORM

Yes

2025 EVIDENCE

DRAFT COMMENT

716 / 1,000 characters

MMSU works directly to maintain and extend ecosystems and their biodiversity. It manages 1,068.13 ha of Forest Reserves (Lubbot, Payao) enriched in 2025 with 120 native guijo and yakal seedlings and 130 bamboo propagules from its own nurseries. Its Indigenous Food Plants Program conserves 46 documented wild food plants in situ, ex situ and circa situ (second community foodscape batch, Oct 2025; RDC Region 1's first adopted R&D initiative). Its DOST-PCAARRD nature-based solutions project protects mangroves in Badoc and Currimao, and MMSU, Rotary and LGU Badoc planted 280 propagules in a typhoon-damaged stand (6 Dec 2025). A new bambusetum was established in Pinili (2025). mmsu.edu.ph/article/news/2468, /2670

BEFORE YOU SUBMIT

- Add a source link or screenshot for the NbS and IFP items cited to the SFT Office report.
- Confirm the 2027 data year with THE before upload.
- Upload one file per indicator (this storyboard is built for that). THE rejects evidence that is mainly a list of links.
