15 LIFE ON LAND

THE ASKS

Include local biodiversity into any planning and development process (e.g. construction of new buildings).

MMSU'S COMMITMENT

Take an active role in protecting and promoting sustainable use of terrestrial ecosystems, responsible land use, and biodiversity conservation.

STORYLINE

Biodiversity written into the 20-year land plan: protected land, a no-build forest reserve and science before construction.

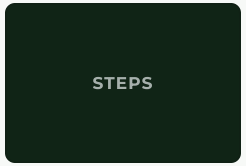

COMPENDIUM NOTE · CONTINUING ONLY

No 2025 item was found for this indicator. The material below is from before 2025 or from 2026 and, as far as the records show, is still in place.

MARIANO MARCOS STATE UNIVERSITY

Land Use, Zoning, Water, and Energy Policies

Economic Zone

Principle 8. Socioeconomic development

Policy 8.1 Suitable and feasible portion of MMSU lands shall be appropriated and utilized for economic activities to optimize their utility to generate additional income of the university.

Policy 8.2 University lands appropriated for economic purposes shall be in accordance with the standard rules of comparative advantages.

Protected Land

Principle 9. Protection, conservation and preservation

Policy 9.1 Protected landholdings of the university shall be conserved, preserved and to be excluded from any form of alteration except as may be permitted by operation of law.

SIRMATA 2040 LUDIP (2021) · A 20-YEAR PLAN PART 1 OF 2

Sirmata 2040: Planning MMSU's Campuses and Reserve Lands for Two Decades

Plan · Sirmata 2040 LUDIP (2021), a 20-year plan

1 **THE PLAN**

MMSU's Land Use Development and Infrastructure Plan is the university's 20-year guide for its land resources and infrastructure, prepared under RA 11396 with a Php 2 million CHED grant.

2 **THE COVERAGE**

The future land use of the MMSU campuses and the reserve areas in Nagbacsan, Payao, Lubbot and Sarnap, City of Batac, including the forest reserves where forestry and agroforestry research is set up.

3 **THE PROCESS**

Built through stakeholder consultations, sectoral studies and campus planning workshops, and endorsed by the CHED Technical Working Group after validation visits to the campuses.

Illustrative reading of Policies 9.1, 7.1, 10.1 and 11.1 for a proposed new building

1 **Proposed development**
e.g. a new building on university land

2 **Protected Land?**
Policy 9.1: excluded from any alteration except as permitted by law

3 **Forest Reserve?**
Kept as a no-build zone

4 **Science-based assessment**
Natural suitability and carrying capacity before land is altered or converted (Policies 7.1, 10.1, 11.1)

How the Plan Builds Local Biodiversity into Development

Plan · Sirmata 2040 LUDIP (2021), a 20-year plan

1 **PROTECTED LAND**
“Shall be conserved, preserved and to be excluded from any form of alteration except as may be permitted by operation of law” (Policy 9.1).

2 **NO-BUILD ZONE**
The MMSU Forest Reserve is kept as a no-build zone.

3 **SCIENCE FIRST**
Before any land is altered or converted, the plan requires a science-based assessment of its natural suitability and carrying capacity (Policies 7.1, 10.1 and 11.1).

DRAFT COMMENT

638 / 1,000 characters

MMSU's Sirmata 2040 Land Use Development and Infrastructure Plan (2021, RA 11396) is the university's 20-year guide for its campuses and reserve areas in Nagbacsan, Payao, Lubbot and Sarnap. Local biodiversity is built into its development rules: Protected Land is excluded from any alteration except by law (Policy 9.1), the Forest Reserve is a no-build zone, and a science-based assessment of natural suitability and carrying capacity is required before land is altered or converted (Policies 7.1, 10.1, 11.1). The plan followed stakeholder consultations and was endorsed by the CHED TWG. mmsu.edu.ph/news/ched-twg-oks-mmsu-sirmata-2040

BEFORE YOU SUBMIT

- Quote the forest-reserve and green-space provisions in the final version (peer benchmark).
- No 2025 item: show a 2025 development decision that applied the plan, if one exists.
- Confirm the 2027 data year with THE before upload.
- Upload one file per indicator (this storyboard is built for that). THE rejects evidence that is mainly a list of links.
